

## **En Pointe Technologies Signs Contract with Regus To Offer IT Services at all their U.S. Operations**

LOS ANGELES, March 16 -- En Pointe Technologies, Inc. (Nasdaq: ENPT - news) a national business-to-business e-commerce provider of IT products and value-added services, announced today it had signed a contract with Regus (Nasdaq: REGS), the leading international serviced-office provider. En Pointe now manages IT services and provides hardware and software for 67 Regus locations throughout the U.S. This multi-million dollar technology support contract has the potential to increase with the expansion of the Regus network.

Eric Myers, Executive Vice President of Regus Business Centres, stated, "Our clients expect world class facilities and world class IT services and they recognize the value of IT services from En Pointe. We wanted to establish a relationship with a leading equipment and service provider that could help us deliver standards-based IT services that could evolve over time. En Pointe offers highly reliable and scalable IT platforms that allow us to offer consistently high-quality IT services to our clients."

Regus offers flexible workspace and a full range of business services in a professional, networked environment. Clients are matched to the exact space they need, as quickly as overnight. Space is available when and where clients need it, virtually anywhere in the world that business is done. Workspace is available for a week, a month, a year - or even five. Regus is continually expanding their range of service to provide fast-moving companies with the flexibility and tools they need to compete in today's hyper-competitive marketplace.

"En Pointe Technologies was approached to design a scalable and secure infrastructure to allow Regus to extend their services with high-speed Internet connectivity," stated Tom Dresser, Vice President of Global Services for En Pointe. "Centralized support for the Regus Centres is provided by our Network Operations Center, located at En Pointe's corporate headquarters in El Segundo, California, with satellite support locations in New York City and San Jose, California. In addition, our En Pointe employees provide technical support, proactive management, architectural design, installation coordination, product procurement, client support, as well as on-site support at each of the Regus facilities. As Regus continues to grow, En Pointe will be there to consistently deliver IT solutions, worldwide."

### **About En Pointe Technologies**

En Pointe Technologies, Inc. is a national business-to-business e-commerce provider of IT products and value-added services, using customized and non-proprietary software and systems to drop-ship products to its customers through an electronically linked network of the largest allied distributors in the U.S. This software allows En Pointe to serve as an electronic clearinghouse of computers and computer related products without many of the risks and costs associated with maintaining inventory. En Pointe offers its customers direct on-line access to 70% of the mainstream PC products available in the U.S. today.

En Pointe Professional Services offers "total solution" system consulting services, such as pre-sale consulting, design, training, customization and integration. En Pointe Technologies has become one of the fastest growing resellers in the computer industry with a global presence in association with strategic partners. Operating nationally with a work force of over 500 employees, En Pointe is well equipped to provide support to your organizations at every stage of the IT life cycle - from design to acquisition, implementation and installation all the way through to training, technical support and maintenance.

En Pointe has sales and service locations throughout the United States, as well as a value-added ISO 9002 certified integration facility in Ontario, California. Visit En Pointe on the Internet at [www.enpointe.com](http://www.enpointe.com).
