

En Pointe Technologies Awarded Contract Extension from State of Minnesota

Los Angeles, CA - July 15, 2002 - En Pointe Technologies, Inc. (NASDAQ:ENPT), a leading national provider of information technology products and services, has received a one-year extension in its contract to provide the State of Minnesota hardware, software, maintenance and technical services. En Pointe's agreement with the State of Minnesota included an initial two-year contract period, with up to three additional one-year extensions following the initial contract period. This extension represents the first year of that extension period. En Pointe's contract as a prime supplier to the State of Minnesota represents one of several contracts awarded by the State to provide information technology products and services.

"We are very pleased with our continuing relationship with the State of Minnesota," said Kevin Schatzle, Senior Vice President of Sales and Marketing for En Pointe. "We believe this extension represents an endorsement of En Pointe and our ability to meet the varied needs of the many state, county and local agencies and school districts throughout Minnesota. Our local sales and service personnel have developed a strong working relationship with State of Minnesota personnel, one which we hope will extend well into the future."

En Pointe has been providing support to state and local governments for over ten years. En Pointe's involvement with this sector has required it to establish streamlined processes, including the use of En Pointe's AccessPointe™ e-commerce offerings, thereby allowing it to offer competitive pricing. En Pointe remains committed to serving this marketplace.

AccessPointe™ provides Intelligent Purchasing and real-time multi-sourcing capabilities that allow the customer to search for best price and/or availability on over 220,000 IT products offered by thousands of manufacturers and software publishers. Creation of intelligent standards with pre-defined options within AccessPointe™ allows CTO's to reduce support costs and ensure compatibility. Additionally, line-level detailed order tracking provides purchase order confirmation along with shipment, serial number, invoice and payment details. Through the use of AccessPointe™, procurement officials can increase efficiency and save time.

About En Pointe Technologies, Inc.

En Pointe Technologies, Inc. is a national service provider of information technology products and professional services to medium and large commercial customers and government and educational accounts of all sizes. A state-of-the-art e-commerce network electronically links En Pointe, via AccessPointe™ and its back-office business systems, to the largest distributors and manufacturers in the industry. En Pointe offers direct on-line access to several billion dollars of mainstream IT products available in the US while eliminating the risks associated with carrying significant inventory. Its flagship software platforms AccessPointe™ and AccessPointe Pro™ provide En Pointe's customers with the ability to create private electronic exchanges, accessed through the Web, procurement applications or ERP systems, to efficiently manage the procurement process and allow the Company's customers to make fully-informed strategic buying decisions. En Pointe Professional Services offers value added services such as: Pre-sales consulting, Technology Planning and Management, which includes -- integration, configuration, deployment and migration, Project and Program Management, and Infrastructure Support and Maintenance.

En Pointe is represented nationally with a concentration in more than 22 sales and service markets throughout the United States, as well as a value-added ISO 9002 certified integration facility in Ontario, California. Visit En Pointe at www.enpointe.com.

This document contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. In addition, from time to time, En Pointe Technologies, or its representatives, have made or may make forward- looking statements, orally or in writing. The words "estimate," "project," "potential," "intended," "expect," "anticipate," "believe" and similar expressions or words are intended to identify forward-looking statements. Such forward-looking statements may be included in, but are not limited to, various filings made by the Company with the Securities and Exchange Commission, press releases or oral statements made with the approval of an authorized executive officer of the Company. Actual results could differ materially from those projected or suggested in any forward-looking statements as a result of a wide variety of factors and conditions. Reference is hereby made to the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2001, for information regarding those factors and conditions. Among the important factors that could cause actual results to differ materially from management's projections, estimates and expectations include, but are not limited to: Changing economic influences in the industry; dependence on key personnel; actions of manufacturers and suppliers; and, availability of adequate financing.
