

# En Pointe Wins a State of Minnesota Contract, and Continues to Provide Support to Local Agencies

Monday August 14, 2:00 pm ET

LOS ANGELES, Aug. 14 /PRNewswire-FirstCall/ -- En Pointe Technologies, Inc. (Nasdaq: [ENPT - News](#)), a leading national provider of Information Technology (IT) products and services, announces it has again been awarded one of several Information Technology Solutions contracts with the State of Minnesota.

"En Pointe is positioned as a 'Full Service' technology vendor for the State of Minnesota. Because of the inherent complexities of managing multiple service level agreements under one contract, the State of Minnesota was looking for companies who had a proven record of delivering both hardware and software as well as managed services, under one umbrella, at competitive rates. En Pointe was one of the clear choices," stated Dave Mochalski, Vice President of Sales and Marketing for En Pointe. "Their decision to award us a 'Full Service' IT Contract testifies to En Pointe's ability to serve State customers' needs."

Under the terms of this agreement, En Pointe will provide information technology solutions products and services (Computer Hardware, Software, Maintenance and Technical Services) to the State of Minnesota. This encompasses over 1,100 entities, including state agencies, counties, cities, school districts, and higher education. In addition to Minnesota, En Pointe has been providing IT products and services to other state and local governments over the past thirteen years.

"We are very pleased with our continuing relationship with the State of Minnesota," said Bob Din, CEO of En Pointe. "We believe this second win demonstrates En Pointe's ability to meet the varied needs of the state, county and local agencies and school districts throughout Minnesota. Our local sales and service personnel have developed a strong working relationship with State of Minnesota personnel, one which we hope will continue well into the future."

About En Pointe Technologies, Inc.

En Pointe Technologies, Inc. provides the information technology marketplace, including mid-market and enterprise accounts, government agencies, and educational institutions nationwide, with computer hardware, software, information security, and managed and professional services. En Pointe has the flexibility to customize information technology services to fulfill the unique needs of each of its customers.

En Pointe runs on SAP, Clarify(TM), and AccessPointe(TM) (an e-procurement application), proven and dependable software applications, to support En Pointe's broad customer base. Founded in 1993 and headquartered in Los Angeles, En Pointe maintains an ISO 9001:2000 certified configuration center in Ontario, California and is well represented in leading national markets throughout the United States. En Pointe has the experience and the technology to help organizations simplify the management of their information technology infrastructure.
