

## Major City in Western United States Signs Outsourcing Agreement with En Pointe

*Professional Services Division Continues to Win Major Customers*

**El Segundo, CA, May 26, 2006**—En Pointe Technologies, Inc. (NASDAQ: ENPT) today announced that its Professional Services Division has begun work under an agreement with a department of a major city located in the Western United States that is expected to generate over \$2.5 million in revenues for En Pointe. Under the terms of the agreement, En Pointe will provide the city department with infrastructure, service professionals, and advanced server and networking technologies that will replace some of the department's current information systems. En Pointe will also upgrade the department's central application database, which supports thousands of critical revenue transactions per year by city employees, citizens and local companies. The project is intended to assist the department in achieving lower costs, more accurate data, and improved customer service.

"We believe that this services contract award continues to validate En Pointe's ability to provide enterprise class service and management capabilities to its customers," said Bob Din, CEO of En Pointe Technologies. "Our outsourcing services will augment the department's internal staff to help implement this new technology faster and more effectively. Not only will En Pointe bring new technology to the department, but the new technology may also result in cost savings in the long run for the citizens of the city."

### **About En Pointe Technologies, Inc.**

Since 1993, En Pointe Technologies, Inc. has provided the Information Technology marketplace, including Fortune 1000 companies, government agencies, and educational institutions nationwide, with computer hardware, software, information security, and managed and professional services.

With its commitment to customers, En Pointe has the flexibility to customize services to address the unique needs of its customers. En Pointe's infrastructure is supported by SAP, Clarify™, and AccessPointe™ (an e-procurement application), providing dependable software support for its broad customer base. A minority business enterprise, En Pointe is represented in several markets throughout the United States and maintains a value-added configuration center that is ISO 9001:2000 certified for its integration services. En Pointe has the experience and the technology to help organizations simplify the management of their I.T. infrastructure.
