

The HP Officejet Pro X Series

The world's fastest desktop printers.

Print up to twice the speed and half the cost of color lasers.

Thanks to HP PageWide Technology, the HP Officejet Pro X series gives you professional quality prints at up to 70 pages per minute in general office mode—at half the cost per page of color lasers.

HP PageWide Technology: The future of printing, now.

Unlike printheads that move back and forth across the page, the HP Officejet Pro X features groundbreaking PageWide Technology—immobile printhead that spans the width of a page, simultaneously delivering four colors onto a moving sheet of paper. The result is lightning fast printing, lower supplies consumption, and professional prints.

Speed, savings, quality and more.

The HP Officejet Pro X Series also features:

- **Automatic two-sided printing:** For quick turnarounds and less waste.
- **500-sheet main paper tray:** Saves time with fewer interruptions.
- **Vivid color:** Consistently produces durable, professional-quality color documents using Original HP pigment ink.
- **Keep costs in line:** This ENERGY STAR® qualified device uses up to 50% less energy than color lasers.
- **Mobile productivity:** Print from your smartphone or tablet from virtually anywhere with HP ePrint.
- **HP Web Jetadmin:** Proactively manage this device and remotely monitor status with this industry-leading tool.
